LEGEND

Data are displayed as mean ± SEM (N) unless otherwise noted.
Statistical analysis was performed by Jonckheere (trend) and Shirley or Dunn (pairwise) tests.
Statistical analysis for the positive control group compared to the vehicle control group was performed using the Kruskal-Wallis test.
* Statistically significant at P <= 0.05
** Statistically significant at P <= 0.01
Statistical significance for the control group indicates a significant trend test
Statistical significance for a treatment group indicates a significant pairwise test compared to the vehicle control group
KLH - Keyhole Limpet Hemocyanin; IgM - Immunoglobulin M; IgG - Immunoglobulin G
CPS = Cyclophosphamide
